### **Department Overview**

The Applied Integrative Health and Health Management Department provides courses in practice building, practice management and integrative health management for many of MUIH's degree programs. The department studies integrative health practice models and provides both academic programs and consulting in this area.

### **Purpose**

In its role as a service unit to the other programs, the mission of the Applied Integrative Health and Health Management Department is to provide practice building, practice management, and integrative health management courses that align with the mission and help achieve the goals of the University's broader programs.

### **Goals**

Students in Applied Integrative Health Management courses develop:

- The practice planning and building skills necessary to plan, manage, promote, protect, and maintain successful holistic and integrative healthcare practices
- An awareness of the ethical, legal, and regulatory environment in which they practice and how to make decisions
- The skills necessary to establish successful and safe clinical and integrative practices
- The skills necessary collaborate in integrative delivery models
- The skills necessary to design and participate in clinical trials that advance integrative health care
