

Type of Opportunity: Acupuncture

City: White Marsh

State: MD

Details: White Marsh Health & Wellness receives 8-17 new acupuncture patients per month and needs someone to take over treating our acupuncture patients on or around Sept. 1, 2015. Current acupuncturist sees two patients per hour in two small but well-appointed rooms with top of the line beds, heat lamps and electric stim machines. We need an acupuncturist to take over the patients load and see returning and new patients. We prefer a therapist already in-network with Blue Cross, CIGNA and other insurance companies but we can get someone in network if need be. Must have a current MD acupuncture license. We are open to discussing compensation or room rental.
