

## Online Resources of the Sherman Cohn Library: Using Tags and the Tag Cloud

--A video on this topic is available at <http://youtu.be/ngUv2Mx7mBU>--

Many resources are available from the Library's Diigo **tag cloud** which is located on the Library's Research Tools page on the Maryland University of Integrative Health's website. A shortcut link to this page is: <http://tinyurl.com/MUIH-Sherman-Cohn-Library/research-tools>. Scroll down to the bottom of the page to view the tag cloud. It looks like this:

(view of Tag Cloud as of 4/18/14)

When working with our online tag cloud, each tag word or phrase is linked to one or more resources that are related to the tag name. Tags appearing larger signify those with the most resources. Tags that are smaller are linked to fewer materials. The resources that will appear when a tag is selected are those carefully chosen by the Sherman Cohn Library. Each link appears with an annotated passage explaining something about the resource.

Give it a try! Use your Internet Browser to open the URL <http://tinyurl.com/MUIH-Sherman-Cohn-Library/research-tools>. Scroll down to the tag cloud and click on the acupuncture tag. This will bring up an annotated list of links that may be of interest to acupuncture students (see image below). Within the group of links showing for acupuncture, a more specific subset can be created by clicking on the plus sign in the yellow box next to any tag in the “related tags” space on the right. For instance, clicking on the yellow plus sign next to article\_resources will narrow the set of results to show only article resources for acupuncture students.

Click on any tag to view annotated resources relevant to its name. Use the plus sign in the yellow box next to a related tag to gain more specific results. It is that easy!

The screenshot shows a web browser window with the URL [https://www.diigo.com/user/s\\_cohn\\_library/acupuncture](https://www.diigo.com/user/s_cohn_library/acupuncture). The Diigo logo is in the top left, and navigation links (About, Blog, Twitter, Tools, Sign up, Sign in) are in the top right. Below the header, the page title is "Sherman Cohn Library's Library tagged acupuncture". To the right of the title are links for "View", "Popular", and "Search in Google".

On the left side, there is a "Selected Tags" section with a minus sign and the tag "acupuncture". Below it is a "Related Tags" section with a list of tags, each with a plus sign and a count in parentheses:

- apa\_citation\_resources (6)
- article\_resources (14)
- books\_and\_documents (8)
- chinese\_herb (45)
- coaching (53)
- database (15)
- ejournals (6)
- fulltext (15)
- fulltext\_some (6)
- government\_information (5)
- health\_data (6)
- herbal (74)

On the right side, there is a list of annotated resources. Each resource has a title, a date, a "Preview" section, and a list of related tags:

- EBSCO (Authorized Users) AND please read annotation if off campus** (14 Nov 12)
